

CURRICULUM VITAE (September 2020)

Falk Huettig

Date of birth:

18 May 1971 in Räckelwitz (Germany)

Contact:

Max Planck Institute for Psycholinguistics

P.O. Box 310

NL- 6500 AH Nijmegen

Falk.Huettig@mpi.nl

+31243521374

Current Academic Positions

- Full Professor of Psycholinguistics and Cultural Cognition, Radboud University, Nijmegen, Netherlands (since 2019)
- W2 (German full professor) Senior Investigator, Max-Planck-Institute for Psycholinguistics, Nijmegen, Netherlands (since 2013)
- PI (Affiliated), Donders Institute for Brain, Cognition, and Behaviour, Nijmegen, Netherlands (since 2010)

Visiting Chairs

- Adjunct Professor, Zhejiang University, Hangzhou, China (2019-2021)
- Visiting Professor, University of Hyderabad, Hyderabad, India (2013-2015)

University Degrees

- Venia Legendi (Psychology), Habilitation, University of Münster, Germany (2013)
- PhD (Psychology), University of York, England, Advisors: Gerry Altmann, Phillip Quinlan (2004)
- MSc by Research (Psychology), with distinction, University of Edinburgh, Scotland (2001)
- BSc Biological Sciences (Psychology), First Class (Honours), University of Edinburgh, Scotland (2000)

Service

- Staff representative of the MPI for Psycholinguistics in the Scientific Council ('Wissenschaftlicher Rat') and in the Humanities & Social Sciences Section ('Geistes-Sozial- und Humanwissenschaftliche Sektion') of the Max-Planck-Society (2009-2015)
- Member of the ethics commission of the German Linguistic Society (Deutsche Gesellschaft für Sprachwissenschaft) DGfS (2012-2014)
- PhD dean, Max-Planck-Institute for Psycholinguistics (2014-present)
- Society for the Cognitive Science of Culture (2018-present)

Grants

- NWO Science Diplomacy Fund (€14,980 with Nils Schiller, Leiden, Ramesh Mishra, Hyderabad): "Multilingualism: an impetus for education and the economy" (2020)
- MPG Strategic Innovation Fund grant (€134,000): "The impact of literacy and numeracy acquisition on cognitive functioning in illiterate adults - A longitudinal approach" (2014-2017)
- Caledonian Research Foundation/ Royal Society of Edinburgh, European Visiting Research Fellowship (£4,000) "The importance of prediction for language processing" (2015)
- German House for Research and Innovation (DWIH New Delhi) event grant (€16,575 with Nivi Mani, Göttingen, & Ramesh Mishra, Hyderabad): "The attentive listener in the visual world" (2014)
- DFG Bilateral Cooperation grant (€9,970 with Nivi Mani, Markus Steinbach, Göttingen, & Zohar Eviatar, Haifa) "Priming across Modalities: The Influence of Orthography on Sign and Spoken Language Processing" (2013)
- NWO Open competition (€208 000; with Chris Olivers, VU Amsterdam), Netherlands: "Looking, language, and memory: Testing a working memory model of language-attention interactions" (2012-2015)
- Max Planck Society Strategic Innovation Grant (€75 000), Germany: "A longitudinal study of structural and functional brain changes in illiterate adults as they learn to read Hindi scripts" (2010-2014)

Editing

- **Editor-in-chief:**
Journal of Cultural Cognitive Science (2017-present)
- **Associate editor:**

- Frontiers in Cognition* (2015-2018)
- **Editorial board:**
 - *Journal of Memory and Language* (2015-present)
 - *Journal of Cognition* (2017-present)
 - **Special issues:**
 - Recent advances in prediction in language processing research, *Brain Research* (2021)
 - The literate mind, *Journal of Cultural Cognitive Science* (2021)
 - Where Next? The Future of Embodiment Research, *Journal of Cognition* (2020)
 - Effects of literacy on cognition and brain functioning, *Language, Cognition, and Neuroscience* (2018)
 - Relationships between language production and comprehension, *Journal of Memory and Language* (2016)
 - Visual search and visual world: Interactions among visual attention, language, and working memory, *Acta Psychologica* (2011)
 - **Edited books:**
 - Mani, N. Mishra, R. K., & Huettig, F. (2018). *The Interactive Mind: Language, Vision and Attention*. Chennai: Macmillan.
 - Mishra, R. K., Srinivasan, N., & Huettig, F. (2015). *Attention and Vision in Language Processing*. Springer.

PhD supervision

- **Susanne Brouwer** (2007-2010; co-advisor: Holger Mitterer, MPI); Thesis: Processing strongly reduced forms in casual speech, Radboud University Nijmegen; (Top 3 of 2011 linguistics theses, short-listed for Anéla/AVT Dissertation Award of the Dutch Association of Linguistics and the Netherlands National Graduate School of Linguistics)
- **Joost Rommers** (2009-2013; co-advisor: Antje Meyer, MPI); Thesis: Seeing what's next: Processing and anticipating language referring to objects, Radboud University Nijmegen; (cum laude, highest grade in Dutch system, top 10%)
- **Alastair Smith** (2011-2015; co-advisor: Padraic Monaghan, Lancaster); Thesis: Modelling multimodal language processing, Radboud University Nijmegen; (cum laude, highest grade in Dutch system, top 10%)
- **Florian Hintz** (2012-2015; co-advisor: Antje Meyer, MPI); Thesis: Predicting language in different contexts: The nature and limits of mechanisms in anticipatory language processing. Radboud University Nijmegen
- **Floor de Groot** (2012-2016; VU Amsterdam; co-advisor: Chris Olivers, VU Amsterdam); Thesis: Looking, language, and memory: Testing a working memory model of language-attention interactions
- **Markus Ostarek** (2014-2018); Thesis: Envisioning language: An exploration of perceptual processes in language processing, Radboud University Nijmegen; (cum laude, highest grade in Dutch system, top 10%)

- **Gabriela Garrido** (2016-present; co-advisors: Stephen Levinson, Penny Brown, MPI); Provisional thesis title: The interface between sentence comprehension and dialogue in a Mayan language spoken in Mexico (Tzeltal)
- **Saoradh Favier** (2016-2020; co-advisor: Antje Meyer, MPI); Thesis: Individual differences in syntactic knowledge and processing: Exploring the role of literacy experience, Radboud University Nijmegen
- **Figen Karaca** (2019-present, co-advisors: Susanne Brouwer & Sharon Unsworth, Radboud University): Provisional thesis title: Who Did What to Whom? An Investigation of Thematic Role Assignment in Turkish-Dutch Bilingual Children

Teaching (University courses/ summer schools)

2020

- *LET-REMA-LCEX29: Psychology of Language and Cultural Cognition* course, MA Research (Centre for Language Studies, Radboud University Nijmegen, Netherlands)

2019

- *LET-REMA-LCEX29: Psychology of Language and Cultural Cognition* course, MA Research (Centre for Language Studies, Radboud University Nijmegen, Netherlands)
- *Summer school "LingPhil Summer School Svalbard"*, 18-22 June (Svalbard, Norway)

2018

- *Trends in Cognitive Neuroscience* course, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)
- *DGCN17: Sentence production and comprehension*, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)

2017

- *Trends in Cognitive Neuroscience* course, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)
- *DGCN17: Sentence production and comprehension*, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)

2016

- *Trends in Cognitive Neuroscience* course, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)
- *HAC-B-086 Bachelor honours course "Eloquent apes: the astonishing human capacity for language"* (Radboud University Nijmegen, Netherlands)
- *DGCN17: Sentence production and comprehension*, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)

2015

- *HAC-B-086 Bachelor honours course "Eloquent apes: the astonishing human capacity for language"* (Radboud University Nijmegen, Netherlands)

- *Summer school "Language Science: Current Methods and Interdisciplinary Perspectives"*, 3 - 7 August (Radboud University Nijmegen, Netherlands)
- *Spring school "MILANGUAGE Spring School of Language"*, 27 May - 29 May (University of Milano-Bicocca, Milan, Italy)
- *DGCN17: Sentence production and comprehension*, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)

2014

- *Autumn school "Methods in language comprehension"*, 13 - 16 November (Rovereto, University of Trento, Italy)
- *Summer school "Function of attention in cognition"*, 30 June - 4 July (University of Leipzig, Germany)
- *DGCN17: Language and the brain*, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)

2013

- *DGCN17: Language and the brain*, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)

2012

- *DGCN17: Language and the brain*, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)
- *MPsy1001: The psychological reality of language*, Master in Psychology (Georg-August-University Göttingen, Germany)
- *050031: Einflüsse der Alphabetisierung (der Lese- und Schreibfähigkeit) auf die Verarbeitung von gesprochener Sprache (Effects of literacy on spoken language processing)*, Bachelor in Linguistics (Ruhr University Bochum, Germany)

2011

- *DGCN17: Language and the brain*, MSc Cognitive Neuroscience (Radboud University Nijmegen, Netherlands)

Ten recent representative publications

- Van Paridon, J., Ostarek, M., Arunkumar, M., & Huettig, F. (in press). Does neuronal recycling result in destructive competition? The influence of learning to read on the recognition of faces. *Psychological Science*.
- Smith, A. C., Monaghan, P., & Huettig, F. (in press). The effect of orthographic systems on the developing reading system: Typological and computational analyses. *Psychological Review*.
- Hervais-Adelman, A., Kumar, U., Mishra, R. K., Tripathi, V. N., Guleria, A., Singh, J. P., Eisner, F., & Huettig, F. (2019). Learning to read recycles visual cortical networks without destruction. *Science Advances*, 5(9): eaax0262. doi:10.1126/sciadv.aax0262.
- Huettig, F., & Pickering, M. (2019). Literacy advantages beyond reading: Prediction of spoken language. *Trends in Cognitive Sciences*, 23(6), 464-475.

- Ostarek, M., & Huettig, F. (2019). Six challenges for embodiment research. *Current Directions in Psychological Science*, 28(6), 593-599.
- Ostarek, M., Joosen, D., Ishag, A., De Nijs, M., & Huettig, F. (2019). Are visual processes causally involved in “perceptual simulation” effects in the sentence-picture verification task? *Cognition*, 182, 84-94. doi:10.1016/j.cognition.2018.08.017.
- Nieuwland, M. S., Politzer-Ahles, S., Heyselaar, E., Segaert, K., Darley, E., ... & Huettig, F. (2018). Large-scale replication study reveals a limit on probabilistic prediction in language comprehension. *eLife*, 7: e33468. doi:10.7554/eLife.33468.
- Huettig, F., Lachmann, T., Reis, A., & Petersson, K. M. (2018). Distinguishing cause from effect - Many deficits associated with developmental dyslexia may be a consequence of reduced and suboptimal reading experience. *Language, Cognition and Neuroscience*, 33(3), 333-350.
- Skeide, M. A., Kumar, U., Mishra, R. K., Tripathi, V. N., Guleria, A., Singh, J. P., Eisner, F., & Huettig, F. (2017). Learning to read alters cortico-subcortical crosstalk in the visual system of illiterates. *Science Advances*, 5(3): e1602612.
- Huettig, F. (2015). Four central questions about prediction in language processing. *Brain Research*, 1626, 118-135.
